

## Red-Hot Reels

Upstart manufacturer Red Pig Reels is offering big-game anglers a new option in the 2-speed trolling reel category. The company's 80W holds more than 1000 yards of 130-pound braid, making it a perfect choice for daytime swordfishing or targeting giant bluefin tuna. Each reel is machined from solid barstock aluminum and features a multiple anti-reverse mechanism, stainless-steel gears and shaft, and eight sealed ball bearings. They also feature a one-touch, 2-speed shift and release as well as a preset drag knob. In addition to the 80W, Red Pig offers reels in 15W, 20W, 30W and 50W sizes to cover the whole gamut of offshore situations. Available in gold or silver finish. \$299-\$499
