Features

10+1 high performance shielded MaxiDur ball bearings

- 10 ball bearing + 1 instant anti reverse bearing provide supper smooth operation, 8 are stainless steel double shield high performance ball bearings located in key positions.

Revolutionary, triple carbon disc drag that is not only exceptionally smooth but delivers 39.5 lbs of stopping power

- High quality triple carbon disc system drag eliminates spool hesitation while delivering smooth drag performance overall and generates an incredible 39.5lbs of stopping power.
