Component color is various by different SKUs.

Valiant Eagle -- The Bald Eagle symbolizes American freedom and strength. KastKing's dynamic new Valiant Eagle Spinning Reel reflects that symbol with quality, innovation, prestige, and affordability. Our introduction of this feature-loaded reel will please anglers from coast to coast whether fishing saltwater or freshwater. We encourage you to enjoy your fishing experiences and outdoor life style, protect our environment, and pass on the sport of fishing to generations to come.

Valiant Eagle Tough Yet Smooth – The carbon disc drag system is in a completely sealed spool so the drag washers stay dry to avoid uneven drag operation. They provide 22 lbs of smooth drag power. This super smooth drag is powerful enough to handle large fish, but starts smoothly to protect light leaders. To ensure consistent performance in freshwater and saltwater conditions, KastKing Valiant Eagle has a total of 10+1 shielded stainless steel ball bearings for smooth retrieves and long casts.

Valiant Eagle Components - The braid-ready aluminum spool eliminates monofilament line backing and features KastKing's Patent Pending line management system for improved casting distance and accuracy. The lightweight aluminum handle provides power for landing big fish under tough conditions. The sure-grip, rubber T-Shaped handle knob is comfortable and gives the angler the extra leverage that is required for complete control while fighting and landing fish in all weather conditions.

Valiant Eagle Performance – KastKing designed this reel for you with the best performance features to ensure the Valiant Eagle delivers quality and performance in a fishing reel that honors our country's symbol and the American Spirit: carbon fiber frame & rotor, aluminum handle, blazing fast 6.2:1 gear ratio, braid-ready aluminum spool, 10+1 shielded stainless-steel ball bearings, and a sealed carbon disc drag to deliver consistently long, accurate casts and the power to handle hard fighting fish.
