BIG GAME TIPS FOR BIG GAME CRADLE REELS

MONTAGUE 6-STRIP CONSTRUCTION

The cutaway shows how Montague's genuine Tonkin cane is cut into strips, then perfectly fitted and jointed to give "a Montague" its matchless resiliency and strength. Also illustrated are the beautiful and sturdy silk windings, and the roller tip top that takes strain and wear off your line.

Superbly built by Montague, these selected flame finish split bamboo tips are ideal to complete the Ocean City Big Game outfit. They are partially interchangeable to help reduce the amount of "gear" a fisherman must carry.

These rugged, sporting rod tips are handsomely mounted and finished in "Big Game" fashion, with five chromium guides—and specially designed roller-type tip top on all sizes from 12 oz. up. All are closely wound with silk and have been given four coats of varnish. Forward grips are of cork and rubber sure-grip composition. (The 725 tip has newly designed, chrome plated, stainless steel roller guides as well as roller top.)
