## WORM ADJUSTMENT BEARING

### QUICK CHANGE LEVEL WIND FEATURE

It's easy to replace the level wind parts on your TOPSAIL reel, or remove the level wind feature if you wish to do so.

With a coin, remove the WORM ADJUSTMENT BEARING of the Worm Guide Pawl. Pawl Cover and Pawl Cover Screw can then be lifted out of position as shown.

When replacing, install LEVEL WIND ASSEMBLY (shown) in left side of reel, and screw in with coin to remove and play in worm bearing. DO NOT SCREW IN WORM BEARING WITH COIN. ALWAYS BE SURE TO KEEP LEVEL WIND ASSEMBLY CLEAN AND WELL LUBRICATED WITH OIL.

When parts show signs of wear replace with new parts.
