The possibilities are almost unlimited when you're fishing with an AX™. That's because AX™ is available in six different sizes. The smallest is the front drag AX-ULS. This tiny reel is fun to fish for trout, crappie, and also with our new Stimula™ ice rods. The rear drag 100, 200 and 300 sizes are loved by bass and walleye fishermen. The large 400 and 500 front drag sizes are great for catfish and saltwater.

The AX™ is a well designed and tough one stainless steel ball bearing reel. The rear drag models feature the QuickFire II® self-centering bail. All models feature lightweight and ding resistant graphite bodies, rotors and spools. The bail will operate decisively for years as it utilizes the No-Fail Bail® spring.
