| MODEL NO. | LINE / CAPACITY | GEAR RATIO | WT. (OZ.) | BEARINGS |
|-----------|-------------------|------------|-----------|----------|
| SO-1000FA | 2/270,4/140,6/110 | 5.2:1 | 8.7 | 3 |

The versatile Solstace™ does everything well. First, and foremost, it's great for sensing fish. The smoothness created by DynaBalance™ and a 3 stainless steel ball bearing drive train lets one feel faint nibbles, that until now went undetected. Second, Solstace™ goes the distance. A drive train with solid gearing and three stainless steel ball bearings at the most critical stress points ensures several years of faithful service. Third, the versatile 5.2:1 gear ratio provides a good balance between high speed land power. The customer wanting a reliable, quality reel will be pleased with the Solstace™.
