Sometimes something just seems to be too good to be true. This is certainly the case with the TX. TX is our lowest priced DynaBalance™ reel. As if this alone were not enough, TX is also built with a die-cast aluminum spool, one stainless steel ball bearing, QuickFire II® self-centering bail, the No-Fail Bail® spring, an oversized line guide roller, and a smooth oil impregnated felt front drag. The TX is a dream come true. Never before has such a fine piece of equipment been available at such an incredible price!
