**IMPORTANT:** There are many models of South Bend bait casting reels now in use, e.g. 1000 A, 1000 B, 15 A, B and C, etc. As many of the parts are not interchangeable, it is of the utmost importance that the REEL MODEL NUMBER be included when ordering parts.

**DISASSEMBLY:** Three-piece take-down construction makes disassembly and reassembly simple. Removal of the four Pillar Screws (3) located around the outer edge of the Head Cap (crank side of reel) makes all assemblies accessible.

The Pawl (27) can be withdrawn from the Line Carriage (26) by removing the Screw (29) and Retainer (28) on the bottom of the Line Carriage.

Numbers shown in red common to both South Bend and Shakespeare.

**NOTE: When ordering parts, give reel part name, reel number and model.**
