270/29	Hexagon Nut	\$.15	270/67A	Bolt for Anti-Reverse Clutch	\$.40			

* Parts marked by a Star are not used on current Quick Super #270 Models but are available as Spare Parts.

A new series of spare parts have recently been introduced to prevent the pick-up arm from tripping prematurely during the cast. The new bail switch components may also be used on older Quick Super #270 models. The new bail switch may be installed by replacing the old spare part number 270/38 - switch ring, with the new spare part numbers 270/135 - switch ring, 270/136 - braking ring, and 270/137 - gasket. When making this conversion, the old spare part number 270/18 must also be replaced by the new spare part number 270/134 - stop lever.
